

DEPARTMENT OF STATE

ACTION: USUN, New York 903

AP Ticker from New York this afternoon carries story that many pro-Cuba hecklers during Dorticos' speech were Secretariat workers from Communist bloc countries: "Most of the Russian Secretariat employees were reported to have left their posts to sit in the galleries."

In view public and Congressional indignation at recently publicized incidents of misbehavior of Soviets connected with UN and Senator Dodd's calling on Senate floor for General Assembly censure of this misbehavior, would appreciate your assessment factual basis for AP story and recommendations for appropriate action on our part.
